

January 1, 2010

Dear Sir or Madame:

The Maryland Recycling Act (MRA) requires Allegany County to divert at least 15 percent of its solid waste to recycling programs. All counties **must** report their recycling tonnages to the Maryland Department of the Environment for review and approval. Last year Allegany County's recycling rate was 28.42 percent. With your support in recycling, we hope to again achieve or exceed this rate.

It is very important that we are aware of any materials your company may be diverting from the landfill in the form of recycling or secondary use. Please complete the form and mail or fax to our office by April 1, 2010.

Thank you very much for your time. If you have any questions, please do not hesitate to contact me.
