PLANNING ORGANIZATION
TRANSPORTATION IMPROVEMENT PROGRAM
FY 2014-2019**

BACKGROUND AND INTRODUCTION

Status of the Urbanized Area

The Cumberland Urbanized Area as defined by the U.S. Census includes portions of Allegany County Maryland and Mineral County West Virginia. The Maryland portion includes Cumberland and Frostburg and the surrounding areas. The requirement for classification as an urbanized area is a population of at least 50,000. The population of the urbanized area in 1980 was approximately 59,000, and in 1990 it declined to approximately 55,000. In 2000 the population remained fairly constant and is now at about the same level as in 1990.

FHWA/FTA Regulations for Urban Transportation Planning

Since the 1960's, the federal government has established urban transportation planning requirements in all metropolitan areas, as a prerequisite to the approval of federal funding (23 CFR Part 450 and 49 CFR Part 613). The regulations require a continuing, comprehensive and cooperative (3-C) planning process in all urbanized areas of more than 50,000.

The Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) of the U.S. Department of Transportation issued amendments effective June 30, 1983 to their existing regulations governing urban transportation planning under FHWA and FTA grant programs. These amendments were partially intended to simplify administration of the planning process for urbanized areas with a population under 200,000 such as the Cumberland area.

In 1991 the Intermodal Surface Transportation Efficiency Act (ISTEA) was passed. This act revised some of the established regulations and procedures and placed a new emphasis on Metropolitan Planning Organizations. As part of this Act the MPO planning process has been more specifically defined and new planning requirements have been prescribed.

In 1998 the Transportation Equity Act for the 21st Century (TEA-21) was passed continuing the initiatives of the 1991 Act, and adding several new provisions and programs.

In 2005 the Safe Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was passed. This Act which provides for the Country's largest surface transportation investment ever retained most of the planning provisions of the previous legislation and added several new metropolitan transportation planning requirements.

Steps Taken to Comply with FHWA/FTA Regulations

The Allegany County Commissioners, acting in their role as the Metropolitan Planning Organization (MPO), annually approve and amend as appropriate the Transportation Improvement Program as required by U.S. DOT, to be eligible to receive funding for the region's transportation projects.

**CUMBERLAND URBANIZED AREA
METROPOLITAN
PLANNING ORGANIZATION**

PUBLIC PARTICIPATION PROCESS

The Board of County Commissioners of Allegany County serves as the Metropolitan Planning Organization (MPO) policy body for the urbanized area. Most MPO business including the Unified Planning Work Program (UPWP) and the Transportation Improvement Program (TIP) approvals and amendments are considered and acted on during the Commissioners' regularly scheduled weekly meeting. These meetings are open to the public and public comment and discussion on all agenda items is encouraged. The meeting agendas are published in advance in the local newspapers and on the County website. When an MPO MATTER is placed on the agenda, a planner from the Allegany County Department of Community Services who serves as the MPO staff attends the meetings to present information and respond to questions and inquiries.

In compliance with SAFETEA-LU and as part of the FY 2008 UPWP, a Public Participation Plan has been developed and will be adopted before the end of the current fiscal year. This Plan will document and formalize the public process, which will be conducted for all MPO activities including the development, review and approval of the TIP.
