

## 2012 International Energy Conservation Code (IECC) Help Page

To help building officials, designers, and builders in Maryland evaluate and attain compliance with the 2012 International Energy Conservation Code (IECC) MEA is creating training videos (at the bottom of this page) and informational pamphlets to be distributed to local code offices. Links and contact info for these services and other useful links can be found on this page. By Maryland statute, all localities should be enforcing the 2012 IECC by July 1, 2012.

### Code training videos

Code training videos are in production, and will be posted as they are created. Follow the links below for training webinars and videos for code officials and design professionals. Check here for updates before the end of 2012.

### Training Webinars for Design Professionals

- [Plan Review and Documentation for Commercial Buildings](#)
- [Insulation, Air Sealing, and Duct Sealing Commercial Provisions](#)
- [COMcheck Version 3.9.1](#)
- [Commercial Building Envelope](#)
- [Heating, Ventilating, and Air Conditioning Commercial Provisions](#)
- [Service Water Heating and Electrical Power and Lighting Commercial Provisions](#)

### Training Webinars and videos for Code Officials

- [Air Barrier and Insulation Installation - Field Inspection](#)
- [Fenestration - Inspection in the Field](#)
- [Heating, Ventilation, and Air Conditioning - Field Inspection](#)
- [Residential Buildings and the Performance Path Option](#)

### Compliance Testing

- [Montgomery County Residential Pilot](#)

### Department of Energy Code Literature

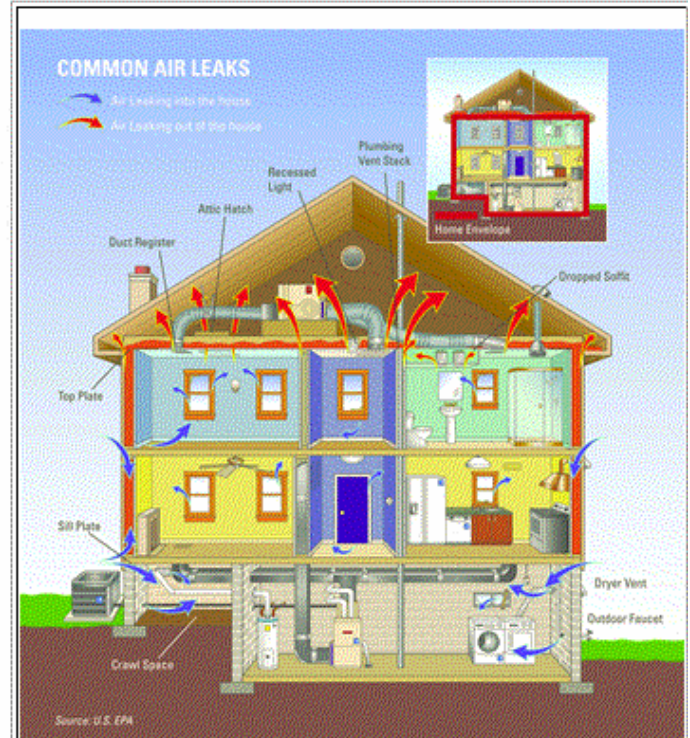

- [2012 IECC-ASHRAE 90.1 Comparison](#) 
- [Changes from 2009 to 2012](#) 
- [National Residential Cost Effectiveness](#)
